

Hello!

In the spirit of the credit union industry's philosophy of "people helping people," we are joining together on March 18, 2022, to celebrate seventeen years of helping to make miracles happen and to raise \$1,000,000+ for the children treated at the eleven Children's Miracle Network Hospitals in California and Nevada.

Credit Unions for Kids is a corporate partner of Children's Miracle Network, the alliance of premier children's hospitals that provides the finest medical care and life saving research to help children overcome diseases and injuries of every kind. Sixty-two children enter a Children's Miracle Network Hospital for treatment every minute for childhood afflictions like asthma and broken bones, or bigger challenges like birth defects or cancer.

Through the generosity of our donors, we have raised \$11 million over the past sixteen years to help Children's Miracle Network Hospitals provide world-class care and make miracles a reality for thousands of kids each year. And because our key sponsors underwrite the expenses of the event, 100% of the proceeds raised during our online, silent, and live auctions will directly benefit the kids.

Donations can range from fabulous wines to vineyard events and unique experiences.

We hope you can join us in building a healthier future for the kids in your community by supporting the Credit Unions for Kids Wine Auction.

Cheers to the kids!
